Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 184 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 184 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Receipt is acknowledged of the change of address, filed on 1/13/2003, the request for extension of time and the amendment, filed on 3/21/2003, all of which have been entered in the file. Claims 5, 6 and 16-18 are pending.

Examiner's amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Philip Articola (38,819) on 5/29/2003.

The application has been amended as follows:

In the claims:

Claim 16 has been cancelled.

Claim 17, line 7: "reading means" has been replaced with --recording medium--.

Claim 18, line 7: "reading means" has been replaced with --recording medium--.

Allowable Subject Matter

2. Claims 5, 6, 17 and 18 have been allowed over the prior art of record.

3. The following is a statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or fairly suggest: an electronic information management system including a portable communication terminal having a data type display controlling means configured to display first information indicating that a data

main body of the electronic information is stored in the portable communication terminal and second information indicating that the data main body of the electronic information is not stored in the portable communication terminal but information representing a storage position of the electronic information is stored in the portable communication terminal, in combination with the other claimed limitations as set forth in the claims.

Nelson (US 5,939,695) teaches a portable communication terminal (3) used for retrieving electronic information. The electronic information may either be stored in the terminal (3) or remote storage (see column 3 lines 1-7). However, Nelson displays a message asking the user whether they would like to see the electronic information now or take the electronic information with them (figure 3, steps 63 and 66), and then either displays the electronic information (figure 3, step 69) or places the information onto paper (figure 3, steps 77 and 78) or a computer readable medium (figure 3, step 85). Nelson does not teach displaying first information indicating that a data main body of the electronic information is stored in the portable communication terminal and second information indicating that the data main body of the electronic information is not stored in the portable communication terminal but information representing a storage position of the electronic information is stored in the portable communication terminal, as claimed in the present invention.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Smith, II et al (US 2002/0113994 A1), Eldridge et al (US 6,430,601 B1), and Lamming et al (US 5,862,321) all teach systems using a portable

Art Unit: 2876

communication terminal to access electronic information. Eldridge et al also teaches selecting a printer, to print the electronic information, using the portable communication terminal (see figure 8 of Eldridge et al).
